SAMPLING INSTRUCTION NOTICE

Please follow the instructions below **to collect a representative infill sample from your field:**

- Use the diagrams below to collect infill from different locations of your field
- Collect a **total weight of approx. 20 oz of infill** (for instance, take 3-4 oz from each location)
- Ensure that the rubber infill is free from sand, as much as possible
- Place your infill sample in a closed transparent plastic bag (ex: ZIPLOC Bag)
- Put the bag in a box and ship it using the tag

Football

Baseball

Soccer & others

Within 48h after your order, you will receive a shipment tag to ship your sample.
